

REVIEW

Les Smith
NODA NE Councillor

Wow, what a show it was, the whole production was totally amazing from start to finish, it was good to see the old black and white films depicting all the old movie stars before the show started, trouble is I remembered most of them!!

I thoroughly enjoyed the whole experience, the orchestra under the direction of Matt Symonds was superb, it was so good to listen to such a powerful orchestra who were all together from the word go.

Once again Claire has shown what an excellent director she is, everything was choreographed right down to the smallest detail, both with the actors on stage and also the set and props which were moved around effortlessly.

Every single member of the cast deserves their own round of applause, they all acted like principals, whether they were a principal or not.

Finally, the four main principals, words cannot describe how good they were, all of them gave 110% to bring this show to life, the emotion they all gave was excellent and I am sure they must all have been totally exhausted by the time the last curtain fell.

Please pass on my sincere congratulations and thanks to everyone involved, especially Claire and Matt who had the vision to get this show on to the stage.

With very best wishes
Les.
